

Turn-Key Solutions

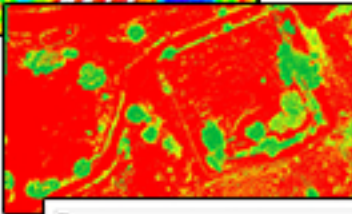

We Fly For You

YOUR ONE-STOP AG DRONE SHOP

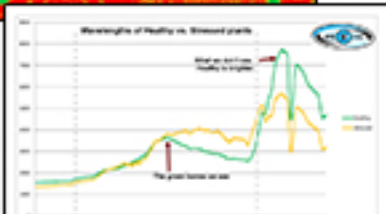

We Are Your Solutions Expert

Thermal Imaging: This camera only sees heat. Have a water leak? Broken sprinklers? Underground leak? AC / heating leaks in roofs? You'll be surprised what's going on without your knowledge...

Infrared / NDVI: We can help you see where the stressed areas are in your field with our infrared cameras. It sees colors that we can't see with our eye...

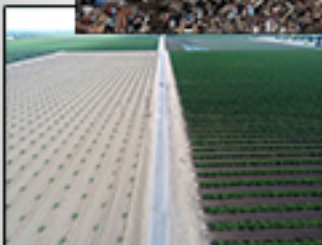

Spectrometer: We have the world's smallest spectrometer. Get the EXACT status of your plants. It's basically a laboratory in the sky giving instant wireless results of plant health.

3D Mapping / Volume Measurements: We can give you a complete 3D map of your property. We can also give volume measurements (gravel pile / empty reservoir).

Bird Control: Our automated drone can be a constant deterrent to your birds. Our drone has 130db loudspeaker that can play any predator bird sound to scare them off..

4K Video: We can give you the 'pretty shots' of your location for marketing purposes. We can even put together a killer marketing video for you.
